

Smart Shop

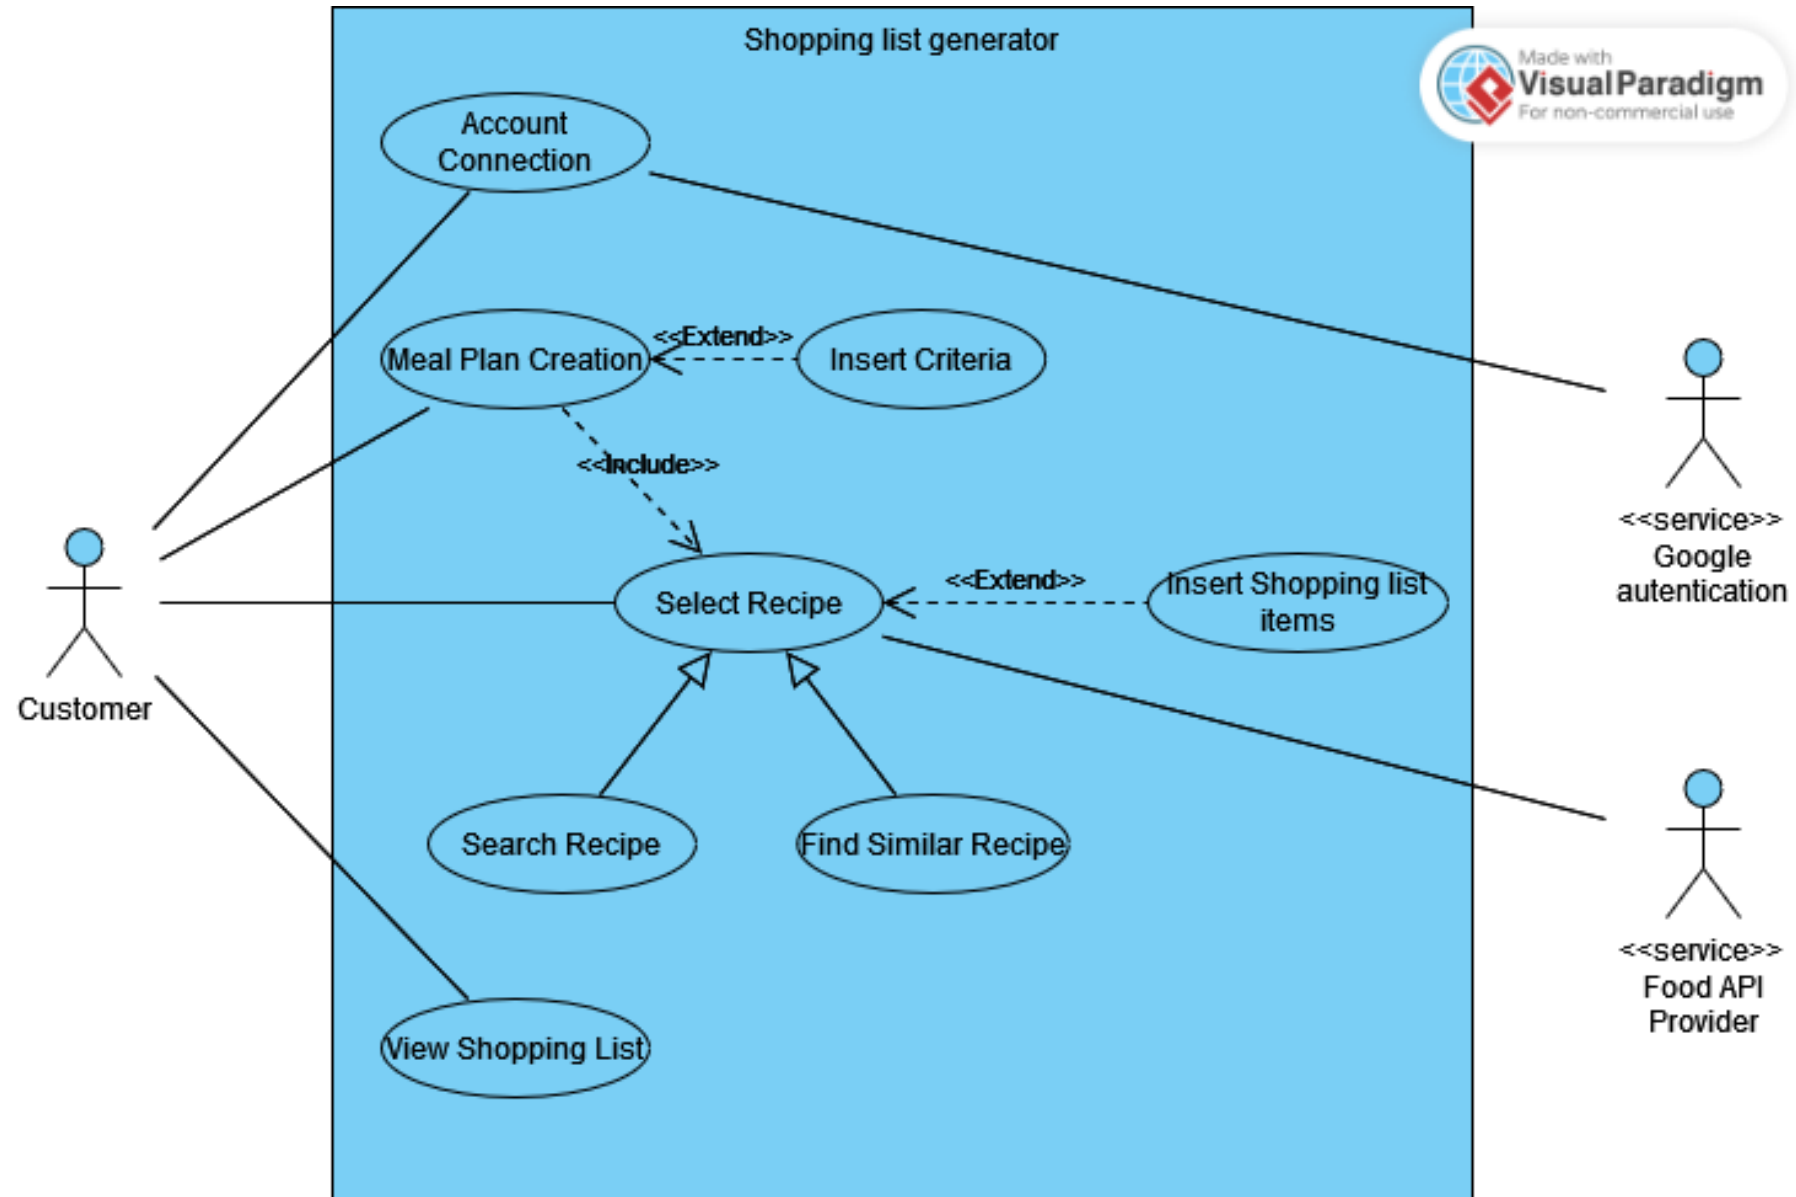

Jad Kang – Project Manager
Robert Orlando – QA testing
Alex Durant – UI/UX
Zacheary Vang – Frontend Developer
Ryan Mcarthur – Backend Developer
Jeremiah Davis – Backend Developer

What we have done

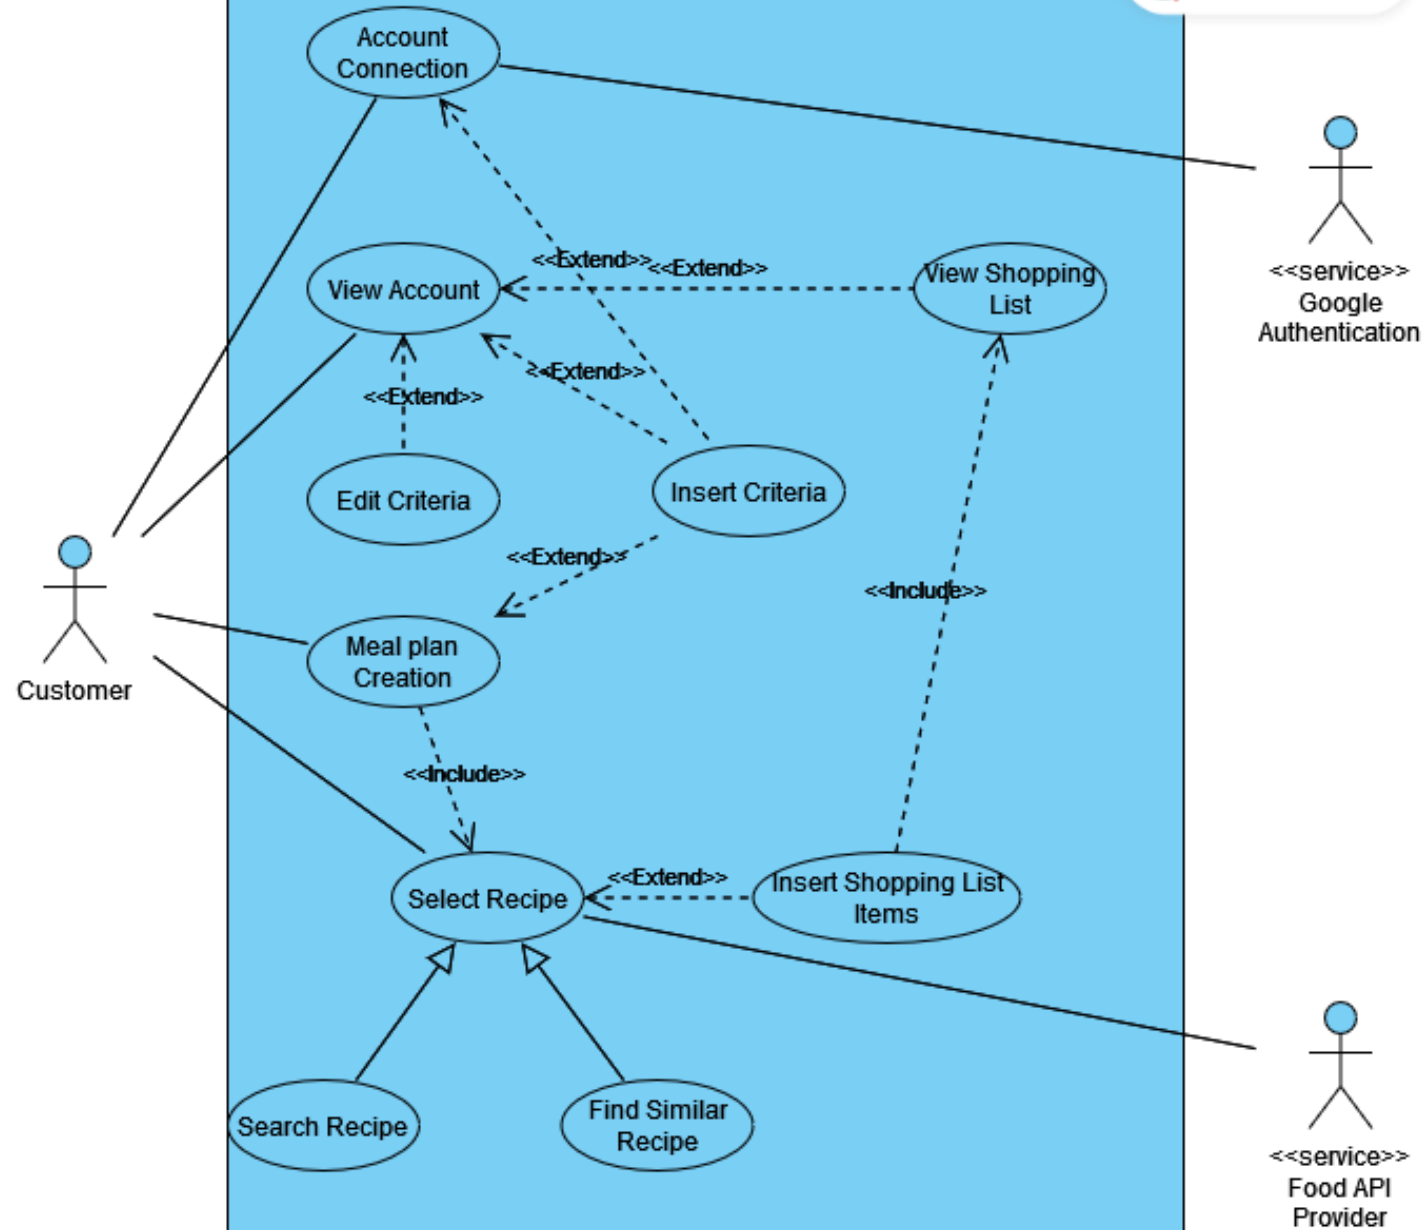

- Can fetch recipes from APIs
- Frontend can connect to backend for creating user profile
- Continued Testing
- Updated UI
- Updated documents

Shopping List Generator

Current Plan

Need to be able to display a recipe on the frontend.
Generate a shopping list from the selected recipe
Finish documentation of group work
